

**NASA/AIHEC Summer Research Experience  
Student Application**

First Name	Last Name
Current Address	Current Telephone Number
E-mail Address	Birthdate (please format mm/dd/yr)
College presently attending	Date of graduation
Current Major/minor	Likely transfer institution/program
Grade Point Average	Names and email addresses of two academic references
Relevant Work Experience or Training	Areas of research interest

**Letter of Application**

Each submission must include an application letter that includes:

- Your academic goals and career objectives
- The subject area and type of research environment you would prefer to be assigned to if given the choice and why. Please try to be as specific as possible to aid us in placing you, but if you are unsure of the specifics, tell us generally of your interests.
- What you hope to accomplish through the Summer Research Experience
- If you know of an individual with whom you would like to work, please specify that person.

Your letter should be approximately 250 – 750 words (up to three typewritten pages).

This application, official transcripts from your institution, the application letter, and two letters of academic reference (which may be sent separately) must be included with your institution's submission, and received by January 31, 2006.
